

Commission Guidelines  
2019  
Real Examples of my 2018 work

## What commissions works are you able to take?

**N**eed a special character or some miniatures very well painted and ready to play? No problem. I can do that for you at great quality.

*I absolutely love to paint miniatures and specialized in 20-40mm Fantasy, Sci-Fi, Modern...etc...*

***I do not take on Army commissions*** (Warhammer, Warhammer 40k), or Historical Units or do conversions sorry!

*I am not a Studio :) I do everything by myself :). I have no problem discussing the possibility of a small force however, so always feel free to ask.*

## How it works

The customer(you) may either provide the miniatures themselves, or I will purchase them for the customer. If I purchase the miniatures (always contacting before do it with you to compare prices&shipping cost), I require cost of the models in addition to the painting services.

If you want I accept models shipped directly from a retailer to my address.  
Colour schemes

You choose what colours want for your miniatures.The hair colours,skin,ropes,etc..

Provide me with as much information about your order and painting preferences as possible.

If you want a certain painted miniature or colour scheme copying, I am happy to do this and although I can guarantee an excellent paint job , cannot guarantee it will look exactly the same,every miniature painter has his own tricks to paint miniatures.

Many people send me links or email pictures of what they want copying.

All my work is put on the website. If you like what you see in my Galleries, you will like what you receive. That is what you are buying. I am proud to display my work.

I am dedicated to painting each and every model to the best of my ability and I do not rush jobs to get them finished quickly. After I feel the project is complete, I will take photos and send them to you for your approval. At this point you can request minor alterations or speak to me about any concerns you may have.

## What covers my Work

Remove flash and mold lines, glue pieces together (pin parts like arms, weapons if needed and if possible to do it).

Pin the miniature/s to resin bases (included on price) if is possible to remove them from his original base. Sometimes its impossible do this without damage the miniature. If this happens I will glue it on a 30mm base and use green staff.

Add static grass,sand,snow,etc..

I use mostly Reaper Master Paints ,Vallejo paints,Scale75,... Always applied with brushes.

My techniques involves traditional methods like blending, washes,glazes,NMM,simple freehand ,pigments (if needed) and future techniques I will discover

Usually I apply 2 coats of Matt Varnish with brush on miniatures (so I am sure every part of the miniatures it is really covered), this is enough to play or use it without problems. If you want an extra coat of gloss varnish before apply Matt varnish please let me know

## ▲ Scheduling a Project

There isn't a minimum (you can send 1 miniature without problems), and maximum...well I prefer small number (maybe 10-15 for month), from one customer, because I have steady clients that send me miniatures every month.

But if you want send to me a big amount of miniatures to save shipping cost is not a problem, though we will split them between a few months (if there are so much).

## ▲ Levels of painting & Prices

I only offer one standard level of painting and that is my best!

Can not apply a base coat, do one wash for shadows and apply one highlight and say here you have it finished, that for me is not a nice paint work.

The prices doesn't include the cost of miniatures if purchase is needed

Prices for miniatures like Reaper, Darksword, Hasslefree,.. etc...

My commission rate its **95\$** for miniature (28-42mm)

Single model mounted (Horse or comparable) **130\$**

Prices for miniatures like Foundry, Foundry, Saga,..etc..

My commission rate its **65\$** for miniature (28-42mm)

Single model mounted (Horse or comparable) **80\$**

Boardgame miniatures like Coolminionot Zombicide, Rising Sun, et.....

My commission rate its **80\$** for miniature (28-42mm)

Single model mounted (Horse or comparable) **120\$**

# Shipping

I send the miniature/s very well protected: use double wall cardboard boxes for big orders (These cardboard boxes provide additional strength and durability and resist crushing when stacked) and put the miniature/s between unbreakable foam blocks covered with bubble plastic (The blocks hold their shape and rigidity).
